SUCCESSFUL AFFAIR.

A whist party and dance was given in Town hall Thursday evening by the Collins, Maria Higgins, Annie Corrigan Arlington branch of the Hospital Aid Margaret, McConnell, Mrs. Fitzgerald, society for the benefit of St. Malachy's worked hard to achieve the grand rechurch, the proceeds to be used in fur-nishing the sanctuary. The attendance was large, there being 70 tables. Many lowing: could not get tables, so they played could not get tables, so they played among themselves on the settees. The playing was continued until after ten o'clock. The prizes were won by the following: First gentleman's prize, Mr. Robert J. Kelley; second gentleman's prize, Mr. Peter Cohen; first ladies' prize, Mr. Daniel J. Cleary, who played the lady's part; and second ladies' prize, Miss Annie White.

After the games had ceased and the tables been cleared away, the company formed themselves on the floor for dancing. Prof. Bendix's orchestra furnished

ing. Prof. Bendix's orchestra furnished the music, and we can say without hesitancy that the quality of the music was far above any we ever heard on the platform of Town hall. We are pleased to know Prof. Bendix is receiving the patronage of our local dancing parties, having many engagements ahead. The dancers evidently enjoyed his playing, judging by the way each waltz or galop was encored. This pleasant pastime was indulged in until one o'clock.

The net proceeds will add a handsome sum to the object for which it was gotten up, and Mr. John Bishop, who is at the head of the local branch here, is to be congratulated upon the success attained, as he goes into the work whole hearted, and endeavors to make the events a success he undertakes.

The floor director was Mr. Philip A. Hendrick, and Mr. John A. Bishop his assistant. The aids were Messrs. John R. Hendrick, H. T. Cleary, J. O'Brien, James P. Powers., D. A. Purcell, Her-

AGAIN HONORED.

I. HOWELL CROSBY.

Shortly after eight o'clock Wednesday evening the Republican Representative convention was held in the committee room in the Town hall. Mr. W. W. Rawson, on nomintion of Mr. Horace A. Freeman, was made temporary chairman of the delegates and Mr. Freeman was made temporary secretary. Two delegates were absent, Messrs. Walter Peirce and Edward S. Fessenden, their places being filled by Messrs. close contact is had with great questions S. A. Fowle, Jr., and Stephen B. Wood. The Lexington delegates were also CRAYONS. minus the required number, and after the vacancies were filled, the conven- learn that men of all creeds, all races tion was called to order by Mr. A. S.

Mr. Henry W. Lewis of Lexington was made temporary chairman of the the great lessons of these experiences. convention, and accepted the same with and I wish here and now to aknowledge thanks. Mr. Clarence T. Parsons of Arlington Heights was made temporary them. In return, I can simply say that secretary.

On motion of Mr. Rawson, three delegates on credentials were chosen, they rights. being Mr. W. W. Rawson and Rev. H. H. Hamlin and Mr. William G. Elliott nomination you tender me tonight is of Levington. The count showed to of Lexington. The count showed 10 Lexington and 17 Arlington delegates.

Mr. Freeman made a motion that the term. You give me this unusual honor temporary chairman and secretary be not because it has been merited by any made permanent, and it was so carried.

Owing to the absence of Mr. Fessenden, who was to have made the nomination speech, Mr. George W. Sampson of Lexington was called upon, and, as usual, crowned himself with glory. It was an impromptu speech, but every it not for the fact that the active menfor word bespoke eloquence for the candidate, and he received vociferous applause when finished. It was substantially as follows:

"I expected an other would be present tonight to present the candidate, but was notified this morning Mr. Fessenden was absent and was asked to make the nominating speech. I deep y appreciate the bonor in present in the past two years have so loyally believed in me, I pledge my utmost endeavor to merit that faith in appreciate the bonor in present in the past two years have so loyally believed in me, I pledge my utmost endeavor to merit that faith in appreciate the bonor in present in the past two years have so loyally believed in me, I pledge my utmost endeavor to merit that faith in appreiate the honor in presenting to the convention one who has been faithful to every trust and has so ably represented this district. I come here representing fish and magnanimous acquiescence to not only the Republican delegates but the whole Republican party of Lexington in the choice of our candidate and the wishers of a sister town, by which alone a third term became a possibility, is most deeply appreciated not alone by a part of history, will be substantiated in the year to come. As I believe I stated a year ago, 'he is trusted by his associates, unknown only to the lobby, associates, unknown only to the lobby, respected by his district, esteemed by his town and loved by his friends, what more can a man have or want.' And now, Mr. Chairman, the duty which has fall en upon me, and which, I assure you is a pleasant one, in behalf of the Republicans of the Town of Lexington as well as Arlington, I move the nomination by acclimation of our next representative, Mr. J. Howell Crosby of Arlington."

Mr. Freeman added a few remarks in praise of the candidate which were very flattering and brought forth loud ap-

Mr. F. H. Frizelle was given the floor upon motion of Mr. Sampson and the suggestion of the delegates. He was very brief, his remarks being given was very brief, his remarks being given in a manly and friendly manner. He reign people of the United States. The spoke in high praise of the candidate, and heartily seconded his nomination. both at home and abroad almost stagger

Rev. Mr. Hamlin said the delegates and district congratulated themselves path of evasion, and the American on the choice of their candidate and it people, never so free and independent

the convention. They were Messrs. L.

vention the applause was deafening and prolonged, and while this ovation was going on, the man who had been faithful to the honor conferred upon him stood and faced the convention speech less and unable to utter a word. His deep emotion was plainly noticeable, and the assemblage looked upon him with all the more pride. They knew he had done his whole duty in the past and the future was safe in his hands. After regaining his composure somewhat he made the following eloquent address of acceptance:

Mr. Chairman and gentlemen of the convention: For this renewed expression of your trust, I return my most sincere thanks. I can only hope that this common and conventional expression may convey to each one of you some adequate conception of the feel.

Mr. Rawson made a motion that the less and unable to utter a word. His

this common and conventional expression may convey to each one of you some adequate conception of the feelings that actuate me tonight. To have the respect and confidence of one's fellow-men is a possession beyond price, and cannot fail to be a tremendous stimulus to higher endeav r on the part of him who receives it. You will name for this position in the years to come many an abler man than myself, but hever one who has a deeper or keener

sense of appreciation of the honor bestowed. I know the character of the manhood, yes, and the womanhood, that constitute this district, while my experience in the legislature has enabled me to estimate at its full value a seat in the grand old Commonwealth of Massachusetts.

Mr. Chairman: I have no desire tonight to make the usual perfunctory speech of acceptance, nor do I process to try to impress you with fine-sounding phrases. I would like to speak simply and frankly to you and by the courtesy of the press to all those who have so splendidly supported me. There are times in life when perfect frankness is a duty, and a man need not wear his heart upon his sleeve, if, conscious of great honors conferred, he feels impelled to voice his gratitude in no unertain tones. Two years ago I stood before this convention and received my first nomination. The path before me was new and untried. The natural and proper pleasure which should possess a man at such a time was well-nigh over borne by a sense of responsibility that was almost pain. Tonight I stand before you with the sense of responsibility in no wise diminished but proud and grateful with unspeakable gratitude that my fellow-citizens, among whom I have gone in and out, should still deem me worthy of their support. An experience in the Massachusetts legislature is a liberal education to any thoughtful man. It is there that friendships are formed with able men throughout the state which will be lifelong and even helpful; it is there that of public policy which cannot fail to broaden the mental horizon of the individual and fortify his citizenship; but, best of all, it is there that a man may and all environments can be actuated y a common desire to do their full

duty to a common state.

Mr. Chairman: I have tried to learn to this convention the great debt I am I have never ceased to remember that the chair I occupy belongs to them, and that I am the recipent of delegated

Mr. Chairman and gentlemen: The to be the first man in this town or this district to receive the honor of a third conspicuous ability on my part but because you believe it a self-evident truth that the best representation at the State house lies along the line of a reasonable length of tenure in the office. And, gentlemen, you are right. But do not let us forget tonight that this happy state of affairs could not exist here were Arlington and Lexington prefer to ollow a correct public policy rather than to gratify their personal ambition, and herein is proved the superior character of this old Middlesex district. Is it strange that a man should be proud to represent it? To the people of Arlington, who for the past two years have so ton, and especially to the active party

workers there, some of whom are before myself but as I believe by the people of Arlington, and I have certain know-ledge that it has added to the already fellows, and appears like a welcome oasis in the vast desert of politics.

Mr. Chairman: This is a Republican convention, and I do not forget that I

called upon to face such clamorous, such insistent and such grave problems as has William McKinley. I believe he has grandly responded to the exigencies the thoughtful mind to contemplate, but their solution does not lie along the was a pleasure to vote for such a man.

At this point a committee of three was chosen to escort the candidate to the consensus. The consensus of the consensus the convention. They were Messrs. L.
C. Tyler, John W. White and Frank W.
Herrick.

When Hon, J. Howell Crosby was brought into the presence of the convention of the convention of the convention.

A DESERVED TRIBUTE.

That J. Howell Crosby has been unanimously nominated the third time as the Republican candidate for Representative to the Massachusetts Legislature is a well deserved tribute, to a man who has shown in his public political life, that ability and honesty which commend him to all parties alike. Mr. Crosby's two years in the legislature has reflected not only honor upon himself, but upon his constituents as well, and the Republican party of this district has made rightfully emphatic this honor by his unaminous nomination for the third time, at the caucus on Tuesday evening. Mr. Crosby is emphatically one of the people each and every day. Their interests are his, and he guards them zealously. Inflexibly honest, the lobby cannot touch him. We congratulate Arlington and Lexington for the good common sense they display in keeping a good man in office when they have him. Mr. Crosby's speech in accepting the nomination was one of his best and he always makes an excellent speech.

DR. WATSON'S SERMON.

We wish that everybody in Arlington, and especially every father and mother in Arlington could have heard on Sunday morning that able and well-timed sermon preached by the Rev. Dr. Watson in Grand Army hall. The subject discussed was substantially "not the killing out of the natural man, but mak ing him over by that incoming life from above." While we were greatly interested in the entire sermon, we were especially so in what Dr. Watson had to say of the right training of our children. He urged upon every father and mother present the necessity as well as the privilege of parents meeting face to face their boys in the spirit of love at that age in their youth when the danger of going astray is the greatest.

The doctor in a manly way declared that the human life and its attendant passions that God has given the boy were not to be crushed out, but to be wisely directed and controlled, so that the boy may become all the better man of what we term the passions. And it is this thought that gives us the gist of this editorial. Why will not fathers and mothers get close to their children just at that supreme hour in their lives when they most need their counsel and aid? Why not tell them frankly that God has not given them a single desire or passion the proper gratification of which is not right? 'The boy becomes a better and a stronger man because he is possessed of the human. The imminent danger is found in the fact that the human may become master of that higher life unless great care is had with the children. We believe it to be true in most instances that our boys and girls are allowed to come up into manhood and womanhood without full and free instruction from us parents upon those points which are so vital to youth and which are the introductory to a healthful, vigorous manhood and womanhood, or otherwise to wrecked and ruined lives. Don't tell us longer that this all-important subject is too delicate for fathers and mothers to bring before their children. It is just this kind of false, wicked modesty by which the devil is able to put in his best work. There is nothing connected with the full, healthful development of the boy the children at the proper time in the home. More than this, for there is nothing connected with such a life that we can afford to let go by and so not imours is to be kept "a fit temple of the living God."

But we parents, how oblivious we are to the highest interests and purity of the home! We begin with the chil- tempted to step directly from the nurdren essentially with a lie on our lips sery into business. One of two things ing in the Cutter school. We had not concerning the infant life. About its they should have done before hanging conception and birthright we tell them everything save the truth. What is ness, namely: they should either have there, for heaven's sake, about this gone to school or should have remained then he added, "when I was your pupil normal life of ours of which we should be ashamed? This body of ours has strings. been exquisitely formed by the great artist, and it is our bounden duty to be proud of it and to glory in it. Why should we longer delay to tell our children of it. This false, wicked modesty we so often assume becomes oftentimes hardly less than a vice. We sometimes come very near suspecting the virtue of those parents who are so spotless in their purity that they will not tell those of their own flesh and blood that the human passions running riot will at last not only destroy the body but that finally it will dethrone reason itself, while these same passions intelligently directed will add to the glory of a more early perfected manhood and womannood. O, these children! Let us, the older grown, help them at every point long the years of their youthful, throbbing life by telling them God's truth serning these bodies of ours.

HEAR BOTH SIDES.

It is only the bigot who will not give

respectful and attentive hearing to both sides of the question under discussion. It doesn't matter that we may think that we are altogether right and everybody with an opposite view is altogether wrong; you may be sure there is something for us all yet to learn on every question of interest. In the first place, our study upon matters of importance have for the most part been in the line of our preconceived prejudices. We have started out with a well-defined conclusion that we are bound to reach, We hear the evidence only on one side of the debate. The generous untrammelled mind will welcome the whole field of thought and speculation.

We are led to this line of thought by the book we are reading on "Women and economics," by Charlotte Perkins Stetson, in which we are deeply interested. She has told us many things in the discussion of her subject of which we have before now been entirely ignorant, so that we cordially thank her for becoming in this instance our instructor upon so many points that are vital to family life and to the life of the race. It is not our purpose at this time to write a criticism of the book. This we may do later on, when we have completed the discussion of the subject she so well conducts. We only have in mind now the thought that men and women everywhere should be willing to give a hearing to the discussion of every phase of any and all topics of public interest. Don't assume that you know it all, for you don't. You must get bevond the alphabet before you can teach the higher classes. The diploma is not yours when you graduate from the primary department of instruction. It is enough to make one sweat blood as he meets that man or woman who can be taught nothing. "He that hath ears to hear let him hear," says the sacred word. That man is not far removed from an idiot who, with fingers in his ears, will run from the sources of information, crying all the while "I am right, I am right."

We feel like underscoring what we herein say by reason of the unfortunate fact that we have here in Arlington pro fessedly intelligent and liberal men and women who, we know for a certainty, are not willing to listen to the discussion of the main question when that discussion is contray to their avowed belief. In a town like onrs, where there are so many clubs, there oughtn't to be found an intolerant man or woman. What is there to be feared from a full, free discussion? "Truth," you know, "crushed to earth will rise again-the eternal years of God are hers." So, let what will come, the right must prevail. Arlington, right under the shadow of Bunker Hill and Lexington, ought especially to welcome and glory in free cease to be learners.

PROFESSIONAL COURTESY. One of the best result coming from the Arlington Traders' association is that it recognizes and promotes profesassociation, through their present orchooses may come to Arlington and se up in their class of trade, and the Arlto him the right of fellowship. Our claim that because they were here first that no one else has the right to enter our town for the purposes of trade. All this is just as it should be. It is only your narrow-minded, bigotted, uncultured man who would shut out from his immediate neighborhood any representative of his department of labor. And yet there are just this kind of men who at once sour upon him or her who dares set up shop near him. These small, egotistical souls practically assume they own the earth. They seem to think on their make-up, while it is most likely and girl that cannot be discussed before that God has entirely forgotten that he ever created such supreme jacks. The world is so large that there is room enough for all, and this too without stepping on one another's toes. The press on our youth that this body of trouble with this class of men who believe that everything should come their way is that they have not received the advantages of that broad culture which makes men. They have stepped or atout their shingle advertising their busilonger tied to their mother's apron

> These men, "I know it all" and "I own the ground by pre-occupation," unfortunately get out into the world are thus compelled to attain a growth here in this outward world which they should have reached before birth, thus, coming into the world before they are due, they never become full-grown men. There is no nook or corner in all God's world where these men are not found. physically stronger than we. We are constantly praying for sufficient grace to endure the occasional presence of these intellectual dwarfs, but as yet God has not answered our prayer. O dear, how these burlesques on a well- of their shoes, let the parents do the developed and generous humanity get us out of all patience with such intense

they will probably be saved in the hereafter, and for the simple and only reason that they have not enough about them or in them to be lost.

But all this in no way relates to our Arlington merchants, who, through their organized life, give welcome to the stranger joining their trade.

HE STATED THE FACT.

That Arlington clergyman stated the fact when he said to us the other day that "men and women are everywhere dying for an expression of love." And yet we keep right on in a frigid way about our business, not daring to tell men and women that we love them, even if such be the truth. To love is a manly as well as a womanly quality. We have long ago gotten over that weakly sentimentality that regards love as purely effeminate, only characteristic of school children in their teens. Everybody desires to be loved, save old maids who have become such because the opportunity has never been theirs to say 'yes," and those old bachelors who have received a negative answer to their proposal. But mankind in its normal condition desires to be loved and then to be told of it. Why wait until your friend is dead and then at his or her grave tell some other how much you loved the dear departed? Your tears can avail nothing over the newly-made grave. The cemetery is not the place to declare your love for the friend in whom you confided and who confided in you. Be a man and so go straight to your brother and tell him you hold him in affectionate regard, if this be the fact, and don't hesitate to approach the womau and tell her you love her, if such be the fact. That "ye love one another" is the new commandment. Why not regard it? The only reason under heaven why we do not express our love for one another is the fear that someone will laugh at us and call us a crank.

Recently in reading the published friends of both sexes we were impressed big majority will re-elect Senator Hunwith his affectionate, loving style in tress he now so ably fills. addressing both men and women, and what delighted us most of all was that if he highly regarded and loved his lady friend he frankly and in a taking way told her so without making any apologies for so doing-

Yes, our Arlington clergyman is right in declaring that men and women are starving to death for want of love, and he might truthfully have added that men and women right here in Arlington are starving to death for the same

HANDS OFF THE CHILD.

The above should be the ruling of every home and of every public school Solomon, wise as he was, was all wrong when he declared that "he that spareth his rod hateth his son." We are ready, thought and free speech. Never let us however, to forgive much in Solomon with his 300 wives and his numberless children. He undoubtedly had much to try his patience. Still, his declaration quoted the world over is unphilosophical and contrary to all correct reasoning. It holds good in every instance sional courtesy. The members of this that the child's better nature can only be developed as we older grown apganization, proclaim that any who so proach the boy or girl with our better like begets like. We are not likely to ington Traders' association will extend gather grapes of thorns or figs of thistles. What we are, those under our merchants in their associated life do not care are likely to become. One would hardly expect to find happy boys and Six rooms, bath and set girls in an unhappy home, and no more would one expect to find happy school children in a clouded and ill-natured Four minutes' walk to electic school-room. This law of like answering unto like is universal, so that we fathers and mothers and teachers should be constantly on our good behavior when in the presence of the little ones. Suppose the child does more or less frequently go counter to our wishes, as he most likely will, and even disobey us, and give us an impudent word in that God expended all his omnipotence answer to our reproof, what is gained by a fistic encounter? Nothing is gained Will open for the Fall and Winter

while much is lost. We'll venture that whenever the child is whipped by the father and mother that disposition is aroused in him that were he big enough he would turn round and whip his parents. And it is in no way different in school. It was some years ago while a resident in the west that, spending some portion of our vacation here in Arlington, we came across one of our old pupils when teachmet for years. On accosting him and giving him greeting, he said to us: "Mr. Palmer, I am glad to meet you," and 495 MASS. AVENUE up High street, you gare me a whipping for which I said I would whip you if ever I got big enough." Well our former pupil, a business man now here at the center of the town, is big enough before they are well hatched. They to return the whipping, but he showed mercy and so let us off. We recite this incident as indicating the feeling of the pupil when punished corporally, and the pupil feels, and rightly so, just as you and we would feel were we to be punished by the rod or rattan by some one

Corporal punishment has no business either in the home of in the school, and particularly in the school. If the chil dren are to be whipped and shaken out miserable work We hope the time may soon come when there will not be assumption and egotism. Well, let these little souls go on their way, they surely have this advantage, that while not likely to be saved in this world, be at once vetoed by the authorities.

IN YOUR SHIRT SLEEVES.

Say what you may, there is a real pleasure in sitting in a farmer's kitchen way up in the country in your shirt sleeves. It is a real privilege to be allowed to enter your neighbor's house by way of the back door, and this too without knocking. We oftentimes get impatient and tired out in ringing the front door-bell and then waiting the required or proper time for the servant to Order Box at Peirce & Winn Co. appear at the door and then take our name to the lady of the house before we can gain admittance. How much valuable time is lost by all this red tape method of doing things, and in addition to this fact the social and neighborly life is all knocked out by this eminently proper way of making calls. But to drop into your neighbor's house in an Coals, Wood, Hay, Straw altogether informal way has about it the very elements of kinship,

The past summer has convinced us that we were born for the country. I is exceedingly difficult for us to drop into metropolitan and suburban life. Of course we hold on with a tenacious grip to manners becoming a sensible man, while we vigorously kick against those manners which are put on for merely appearance sake and yet which mean in the country. And then those old kitchen chairs made of braided straws nothing. Yes, we do love the farmer's how much easier and more comfortable they are than your modern chairs. We always feel much at home when we don't have to take off our hat on the door-step before entering the house, and where we frequently find of an evening the good man of the house coatless, reading either his newspaper or eating apples. We have lots of sympathy and love for this style of rural life.

Senator F. E. Huntress of Somerville is right up to date as a public official. His record in the Masschusetts senate last winter has added to honors previletters of Oliver Wendell Holmes to ously gained by him as a legislator. A

ARLINGTON NEWS.

Hereafter, all preliminary notices of church fairs, socials, etc., to which an admission fee is asked, will only be inserted in these columns at the rate of 10 cents per line, un-less an advertisement of such appears in our advertising columns.

Harold Rice, Pelham terrace, is in

The Crosby school renewed its ses-

Miss Smith of Chaflestown was a guest on Wednesday afternoon and evening of Mrs. Harry W. Bullard

The young ladies will conduct another Food sale at the Universalist church on next Saturday from 2.30 to 5 p. m.

Messrs. J. W. Ronco and Herbert Allen, in company with Woburn par-ties, are at Kinneo, Me, on the hunt for deer.

Mr. Eastman of Concord, N. H. has been during the week the guest of Mr. William P. Forster, Academy

The Baptist society met on Tuesday evening to receive reports from its building committee. The committee re ported progress.

has been on the move this week and will rest on its new foundation in the rear of Mass. avenue Who says advertising does'nt pay' Perham tells us that he has sold during

Station Agent Morrow tells us that there has been a greater amount of business done this year at our depot than ever before in any one year in the his-

tory of Arlington station. You can't always tell which is the fastest horse by the looks. Just ask Postmaster Hoitt to explain how that farmer's sleepy old horse got past his gay looking span last week.

his store window this week a monster apple. It measured 13 inches around and weighed 11 lbs. It was from the Hobb estate on Mass. avenue.

W. G. Kimball the contractor and builder understands his business from A. to Z. Mr. Kimball may be found at his office 1003 Mass. ave. where he will tell you all about the modern, conven ient home.

Mr. Harold L. Frost has been at Lake Winnepesaukee, N. H., for a week looking over and treating vast estates in that section. Mr. Frost's company is fast winning a wide reputation in their tree doctoring.

There was no school on Thursday afternoon by reason of the inclement weather, and this is just as it should be. We are glad that our school authorities have such a watchful care for the comfort and health of the school children.

That man is a sneak and utterly devoid of brains who will attempt in a hidden way to injure the business of any one in his own department of labor. We religiously bel eve that it must repent God that he ever made these sneaks and half-breeds.

Mr. D. F. Collins, who has "the right store on the wrong side," understands his business. He doesn't expect to sell goods without advertising, and so it is that he makes a liberel use of printers' ink. Mr. Collins carries a full stock and is selling a pile of goods.

Caterer N. J. Hardy received this week, Monday, two generous cuts of Such public nuisance is forbidden by venison from his friend, Mr. E. S. Barthe town. Now, boys and young men, ker of Winchester, who has been on a deer hunt down in Maine, and reed after having phenomenal luck Mr. Hardy was highly pleased.

The Republican Town Committee have made arrangements for a rally to be held in Town Hall Oct. 25. The speakers will be Hon. Sam'l W. Mc-Call, Hon. F. E. Huntress, our senator, and Hon. Willard Howland of Chelsea, Mr. J. Howell Crosby will preside.

Don't forget that the Arlington sea food market at 411 Broad way is on the most familiar terms with the great waters so that the sea is constantly giving it the best that swims beneath its waves, Any order in the fish line, the proprietor, G. W. Russell, fills his class of beginners numbering some

It is with pleasure we note among those selling milk at 7 cents per quart in Arlington the names of Mr. L. E. Gossom of East Lexington and Mr. Jacob Schuhmacher of the heights. Both are well-known milk dealers here, and deserve hearty support for their not bowing to the trust.

Arlington was visited by a fakir on Friday, who went about in a team blow-ing a bugle, announcing a free show by him at 7.30 in the evening. He was a professional in his line in selling cheap spoons. He claimed he could sell anything, and he no doubt spoke the truth, judging from the way he sold his wares.

Miss Maude Harriman, daughter of Mr. and Mrs. A. S. Harriman, has accepted the position of teacher of physical training in Miss Hall's well known sclect school for young ladies in Pittsfield. Miss Harriman is a graduate of Prof. Sargent's school of physical culture at Harvard, and has already distinguished herself as a teacher in her de- fair which the society is to hold on the 10, contentment. partment of the schools.

the office of Mr. Henry W. Savage, has just sold for Nancie B. Kimball to Patrick J. Barrett the estate numbered 16 Cleveland street, consisting of a twoand-a-half story frame house with seven rooms and bath, all conveniences, together with 5197 square feet of land. The assessed value is \$3520, the terms of sale being private. The purchaser buys for occupancy.

Among the prizes for the display of flower stations along the Boston & Maine railroad are the following:

So. Lancaster. N. H., won 1st prize,

Waltham 2d prize, \$40.
Arlington 3d prize, \$25.
Lake street 5th prize, \$15.
Heights 7th prize, \$7.

We congratulate our Arlington station agents upon their unique display in the floral world.

The Arlington yets were royally entertained by the Somerville vets last evening. There was a parade, collation entertainment and a royal good time in

The regular services at the Universal-Springfield in September. The follow-Tilden of Chelsea, Miss Mary H. Brooks and J. Herbert Barker of North Cambridge, Mrs. George Higgins of Cambridge.

Wednesday morning 108 vets. and friends of the A. V. F. A. started on a o'clock. It was rather a dubious look. The house occupied Mr. N. J. Hardy ing day, but this did not detract from the glory it was thought lay in store for them. However, again they met defeat, playing only 179 ft. 101 in., and stood 15th on the list. Everything was favorable this time to the vets., but they the week some of those cigars five for failed to win the prize. There are few ten cents, directly through his ad in the excuses offered.

Last Sunday was observed as "Rally day" by the Sunday school of the Baptist church. There was a full attendance of scholars and teachers. Brief addresses were given by the pastor, Rev A. W. Lorimer, and the superintendent, Mr. B. F. Cann, while a hymn was sweetly and tastefully sung by Marie Schuhmacher. Rewards of merit were Mr. F. R. Daniels had displayed in presented to Blanche King and Alice Fraser. The outlook of the school for the coming year is very promising.

> It was certainly a merry party that gathered at 9 Grove street on Wednesday evening, where, in spite of the stormy weather outside, the members of the Arlington Heights Baptist church choir, with several friends, had met at the invitation of Mr. and Mrs. Wm. Finley. A very enjoyable hour was devoted to music, accompaniments being played on the piano by the church organist, M. Lennie W. Tay. Another hour was filled in with games, after which re freshments were bountifully served. This was followed by more games, and altogether a most enjoyable evening

> "To be forewarned is to be torearmed," and this is why we append the following paragraph. There has been no little complaint by our business men that some of our Arlington boys and during the evenings of the week and on Sundays on the steps and in the doorways of their places of business and creating a nuisance, not only by their presence, but by their tobacco-spitting upon the steps of the business house. Three arrests have already been made by our police for this misdemeanor. cordingly

> We made a brief visit on Wednesday afternoon at the manual training school under the instruction of Mr. Cobb. His work shop for the boys is in the High school building in a commodious room down stairs. The first sight that you get of the room, gives you an idea of business. There are a series of benches running cross wise of the room. and there are tools on tools put away in their proper place. Mr. Cobb received us plesaently and told us something o thirty boys. Mr. Cobb said the boys began their work with the knife, then follows the plane, the marking guage, buck saw, gimlet-bit, bow saw, gauge, file, carving and spokeshave. These tools belong especially to the class beginning. Later on we shall visit the school that we may learn the work of the upper classes. This department of manual training is one of the most important departments in our public schools. To teach the boy how to do something in a practical way is a wise investment of time and money. And then the boys so enjoy this work. Mr. Cobb evidently understands how to interest his classes in manual study and

The Congregational Home Missionary society held on Wednesday afternoon in the parlors of the church the first of a series of meetings to be held in 7th and 8th of November. The proceeds of the fair will go towards paying for Mr. Winthrop Pattee, connected with the decorations made during the summer in the main audience-room of the church. It is hoped that sufficient money may be realized from the fair to not only pay for the decorating of the upper room, but a sufficient amount aside from this to decorate the vestry. At this fair useful articles for the home will be for sale. An appropriate picture for the public schools will go to that Arlington school securing the most votes. Those interested should send all articles for this Home Missionary exhibit and sale to the vestry of the Congregational church on Wednesday afternoon of any week previous to Nov.
7. The officers of this society are the

President, Mrs. Walter Crosby.

Mrs. C. H. Doughty.
Secretary, Mrs. G. W. W. Sears.
Treasurer, Mrs. E. O. Grover. Chairman of board of directors, Mrs. Gardner Cushman,

The following paragraph from Rev. Dr. Watson's sermon on Sunday morning is only a brief excellent example of the opportunity. Three bright parlor ist church tomorrow. At the morning impressed with the suggestion in scrip- the chapter. Miss Mabel G. Yeames service the pastor will preach and Mrs. ture of the miraculous in the transfigu-Sargent will sing. Sunday school at ration of our lives that we have failed to ney song." Ice cream and cake were noon. At 7 o'clock the young people emphasize the normal, the natural in served. will held a "convention service." Re- the process. In describing the spirituports will be made by delegates to the ally changed man Paul says 'Old things national convention held at Atlanta in have passed away, behold they have be-July and the state convention held at come new.' Not an entirely new life from without has come in-something ing out of town speakers will be present totally distinct from the old, but the and address the meeting: Miss Carol old life is changed into a newer and better one. How? By the renewing of the mind. That is, the changing of the thoughts. 'As a man thinketh in his heart so is he.' Thackeray has put it well: 'The key to every man is his thought.' God changes our lives by special train for Manchester, N. H., at giving us new and correct thoughts. It Sept. 4, 1770, when "a member of the is one great secret in child training. Keep the thoughts clear and clean during the inevitable periods of physical and moral change. Especially in boys does there come a period when appetite and passion have flushed the mind, and when the imagination too easily toys with evil pictures. Parents know this, and ought to watch it, and see that the new power is made a blessing and not a curse. It is a time to flood the the boys soul with light, with a kind of selfknowledge that will transfigure his present life by changing all his thoughts about it. Make him see that the new power is precious, and give him pictures that ennoble every thought about it. When thus the old tenant of evil imaginings is turned out of his mind by the incoming of the new one of intelligent self-appreciation, then you have a new

WOMAN'S CLUB.

Woman's clubs will meet in the Town hall, Amherst, Wednesday evening and months, but continued for a year, when Thursday, Oct. 17 and 18. The general the society concurred with the church subject of the meeting is: "Our opportunities and responsibilities in the modern world." The address on Wednesday will be by Samnel McClure Lindsay, Ph. D., University of Penn., on the "Training for social science." That on Thursday will be by Mrs. Vladimir Sienkboritch of the Friendly Aid Settlement, N. Y. Club members can secure accommodation at the Amherst house at the rate of \$2 per day. Tickets for the luncheon on Thursday may be obtained at the hall on the morning of the meeting. Trains leave Boston for Amherst from North station young men are in the habit of standing B. & M. R. R. at 8.10 a. m. and 1.15 and 4 p. m., single fare \$2.06; South station B. & A. R. R., via Springfield and Northampton, at 8.30 and 10.45 a. m., single fare \$2.73. The olive ticket will be necessary for admission and may be obtained from Mrs. F. D. Sawyer, 96 Jason street, to whom also notice must be given by those desiring the luncheon the organization became known solely on Thursday.

ST. JOHN'S CHURCH NOTES

There will be an "Experience party" at St. John's Parish house, Maple street, on Thursday evening. Early in the summer friends were requested to earn at least a dollar. These dollars are to be paid in on Thursday, the contributors telling, in prose or verse, how they were earned. Music and refreshments will be provided, and admission is en-

The first Episcopal service in Arlington was held in the Town hall 25 years at the death of his wife. She survived ago last Sunday. St. John's parish will him by 18 years, but generously relincelebrate the silver anniversary of its quished nearly one-half of the money organization (Jan. 19, 1875) in the new at once, and by her own will, Sept. 2,

Sunday evening services are held regularly at St. John's church, Academy street, at 7.30. Evening prayer, partly choral, and short sermon. The whole service occupies little more than one

The Rev. James Veames began last Sunday evening a series of discourses on the "Ten commandments." This follows upon the two interesting courses on "The Lord's prayer" and the Twenty-five years later a fourth and "Apostles' creed" given last year. The lecture last Sunday was introductory, that on the first commandment being an- it was repaired at an expanse of over nounced for tomorrow. The commandments will be treated in consecutive order, under the following topics: 1, faith; 2, worship; 3, reverence; 4, service; 5, filial piety; 6, the true philanwhich preparations are to be made for a thropy; 7, purity; 8, justice; 9, truth;

> The Woman's guild of St. John's parish have decided to hold a parish social house, and one which will doubtless on the third Thursday in each month. The object is to promote friendliness and fellowship among the members of the congregation. Musical and literary entertainment will be provided and light refreshments served. These parish socials will be free to all.

The Loyal Temperance legion meets in Parish house, Maple street, every Monday afternoon af 4.15. Parents and teachers are asked to remind the boys and girls of these meetings.

Miss Swadkins, having substituted for Mr. H. C. Dunham at Shawmut church, Boston, during the summer, is tempo-Roston, during the summer, is temporarily taking the organist's place at the Winthrop street M. E. church. During comers in the field of Arlington's ence from St. John's, Arlington, church life.

Vice-presidents, Mrs. A. W. Trow and Miss Kauffman is rendering good service.

An excellent entertainment was given by the Girls' Friendly society of St. John's to their friends on Thursday, the 4th. On this occasion gentlemen were invited and evidently took advantage of what he so well said: "We have been so charades were given by the members of sang "If I were a rose" and "The chim-

> There will appear in the calendar that the Rev. S. C. Bushnell is preparing of the town of Arlington, and of which we wrote in a late issue of the Enterprise, the following interesting paragraph:

> There was a Baptist church in Cambridge as early as 1751, whose minister was educated at Yale, but he did not remain long and the church was dissolved. Religious meetings by Baptists were held in Menotomy as early as 1773, but the earliest known records are dated Baptist society in Cambridge met at Stephen Robbins' to have some discourse about sending a letter to the association to inform them of our circumstances and to desire their prayers for

> A compact of six articles was agreed upon Dec. 13. 1780, by 39 individuals. The spirit of these articles was scarcely less distinctive in evangelical principle and spirit than those adopted by the church. The first parish meeting was held Mar. 6, 1781, and arrangements made to obtain a place of worship, which resulted in the purchase of Capt. Locke's house for \$100 silver.

On June 4, 1781, a meeting was held of persons desirous of forming a church, which was duly recognized by a council on July 5, 1781. In Sept. 1781, the church was received with 27 members into the Warren association, and Thos. Green was appointed by the association to preach at Cambridge the third Lord's By invitation of the Woman's club o day in November. In July, 1782, he Amherst, the Mass. State Federation of was engaged by the society to preach on probation for six weeks or two in calling him to be the regular pastor. He was ordained Nov. 26, 1783, and served 10 years.

The Baptists thus succeeded in getting a foothold in this community. The town was against them, refusing to ex-*use them the from paying ministerial taxes for the support of the older church, Parson Cooke's. The case was carried into the courts and the Baptists won "but never recovered half so much money as had been unjustly taken from them."

In 1790 an arrangement was made for Thomas Green to preach once a month in Woburn, where 22 members of the Arlington church resided. Soon he gave half his time to preaching in Woburn, the name of the church being altered to that of the "Cambridge and Woburn Baptist church." The Woburn part grew so rapidly that in 1794 it built a meeting-house of its own, and as the "Woburn Baptist church."

In 1790 the Arlington society had bought of Ephraim Cook a lot five rods This, their second meeting-house, is now occupied as a dwelling by Mrs. Stingel on the east corner of Brattle street. It was used more or less frequently, but as the Woburn society prospered the Arlington society failed, and was without a minister for many

Interest was greatly revived in 1816 by a bequest of \$5000 in the will of Stephen Cutter, Mar. 4, 1816, to be paid 1834, gave \$11,375.24, including a commodious parsonage.

An act of incorporation was obtained Dec. 14, 1816, and on Nov. 20, 1817, 22 persons, mostly connected with the existing church in Woburn, were by council constituted the "West Cambridge Baptist church."

On the 9th of Sept., 1823, the third meeting-house was dedicated on land given by Mary Cutter. The Sunday school was organized Oct. 2, 1828. more commodious edifice was dedicated, Mar. 3, 1853, costing \$15,000. In 1871 \$11,000, and again in 1892.

When destroyed by fire on the 25th of July, 1900, it contained a fine organ worth \$6000, and was in many respects all that "could be desired." Its detruction has stirred the Baptist society into great activity, and steps were at once taken to erect the fifth meetingsurpass all others in town. Thirteen ministers have served the

society since its reorganization in 1816, the longest pastorate being that of Dr. Charles H. Watson, who began his ministry in Arlington Sept. 18, 1881, and is now finishing his 20th year of service. The Bap of society has never been lacking in A pitality towards its sister churches in Arlington whenever they have been in need of a place of worship. Its meeting-house has been sed again and again by the Congregationalists and once for months at a time. Compelled at the o tset to fight for recognition, it has never failed to show

SONG

We are so folly, contented and gay, Enid and I and the baby; What do we care for the Appian way, Enid and I and the baby Politics, wars and the tariff may go; Little we reck how the fickle winds blow; We're a triumvirate, mighty and low, Enid and I and the baby.

Climb up, my little son, here to my knee-Enid and I and the baby; Isn't he sturdy and brave as could be?

Enid and I and the baby. Take him, my dear, he is weary with play; See how he blinks in that Sleepytown way; Here is a kiss all around, and hurra— Enid and I and the baby.

Robert Loveman in New Lippincott.

+0+0+0+0+0+0+0+0+0+0+0+0+0+0+ UNDER SIXTY FEET OF ICE.

BY M. QUAD.

COPYRIGHT, 1900, BY C. B. LEWIS. ****

Cherry island lies 1,400 miles directly north of Sweden and is the dividing line between the Greenland and the Barents' seas. A line drawn from east to west would strike Nova Zembla on the one end and Hudson's Land on the other. There are about 60 days in the year when the island enjoys the heat and the verdure of summer, but during the remainder there are such cold and bleakness and loneliness as man can find nowhere else outside of the north pole itself. In the deep, dark ravines the earth has never thawed since frozen tens of thousands of years ago, and on the north side are blocks of ice which were cast up there when the Creator was seeking to bring order out of In the year 1860 an English scientific

society fitted out what was known as the Cherry island expedition. It was purely in the interest of natural history. Certain fish and birds which had become extinct in the south were still to be found up there, according to the reports of whalers, and that was the object in fitting out the brig Albatross for a voyage from London. Aside from a strong handed crew, three professors and four or five students accompanied the expedition, and after a voyage almost without event we reached Cherry island soon after the beginning of its brief summer. The last 200 miles of our run was made through field ice, with giant icebergs to be seen on every hand, and we found a great length of shore piled high with blocks of ice from 5 to 25 feet thick. It was a three days' job to warp the brig into a safe anchorage on the south side of the island, and when we had her secure most of the people went ashore to live for a time in tents. Notwithstanding the sunshine and verdure, there was a loneliness about the place to make one afraid. We had expected to find polar bears and rabbits in plenty, but there was not a bit of animal life, excepting a few stray seals, to be encountered. Birds there were in plenty, however, and of the species desired, while fish of all sorts were to be had for the casting of a book. Each professor had his work cut out for him, and I was attached to Professor John Saunders of the Royal museum as a helper. He was after birds and their eggs, and when we had been on the island a week I helped him to capture a specimen of the great auk, which species was supposed to have been extinct for a quarter of a century past. But three of these birds were seen during our stay us into a captivity which lasted for ten years. It was said that the capture of this bird alone was worth more to natural history than the cost of the

The island, which is of volcanic origin, is a mere jumble of rocks. It is 11 miles long by 5 in breadth and at the time of our visit had no tree higher than ten feet. These grew between bowlders and on the slopes, with patches of coarse grass all about, but there was not a level spot half an acre in extent on the whole island. It was intersected in every direction by ravines, some shallow and some of awful depth, and during a storm, when the surf was bringing in great blocks of ice and heaving them upon the rocks, there were rumblings and echoes in those dark ravines to make a man pale with fear. We had been on the island about 30 days and had pretty thoroughly explored it when Professor Saunders and my humble self met with an accident one day which led to a most strange discovery. We had set off together on a hunt after birds' eggs, and in walking along a slope we struck a spot overgrown with a short green weed. As we walked over this bed we suddenly found ourselves slipping There was water under it, and the whole mass gave way and sent us sliding into a ravine. We went slipping, sliding, clutching and bumping a full 50 feet before we brought up, but nelther of us was hurt beyond a few bruises. Owing to the wet grass we could not clamber out at that spot and so continued on down the ravine. Having presently come upon a few bones, which the professor pronounced as belonging to a polar bear, we decided to follow the ravine to its mouth. It led almost north and south. It was dry now, but there were times when it must have been filled with water from bank to bank.

It was a toilsome journey we made, but it ended at last at a wall of ice within half a mile of the surf. At that point the depth of the ravine was about 100 feet, and, though the sun was shining above, it was like evening down there. A few yards before we were brought to a standstill we found the body of a man lying against the wall of rock on the right hand side and ten feet above our heads. It was caught and held fast on a point of rock. We were both a good deal startled by the grewsome sight, and had it been a

ADVERTISE.

saffor with me I know I should have taken to my heels.

"We have a mystery here and must solve it," said the professor as he recovered from his surprise. "Let us get the body down and make an investiga-

It was neither a body nor a skeleton. The cold had preserved the flesh to a certain extent, but the action of the water running down the ravine had also worn it away. The face was well preserved, and the hair was as firm as in life. It was the remains of a man who had weighed perhaps 160 pounds, but I had no difficulty in detaching it from the rock and lowering it down. What remained of the clothing proved that the man had either been a fisherman or a sailor, but his nationality could only be guessed at.

"At some time or other," said the professor as he looked about, "this ravine has been a creek of considerable size flowing down to the sea. This man came up the creek from the beach, but we now find a wall of ice blocking it up. The ice has formed since he came. There should be a boat frozen up in the wall between us and the Bea."

We had nothing to make a torch of, and, retracing our steps to a point where we could climb out of the ravine, we left the mystery to be solved another day. There was much discussion around the campfires that evening, and early next morning we set out to see if the ravine had once upon a time opened to the sea. We soon found that it had. Its mouth had been in a small bay, but a storm had filled it with bowlders and dammed back the waters flowing down. Between the sea and the spot where we found the body the ice was from 50 to 70 feet thick. If the sun melted it for a few feet in the summer, the rains and snows of winter speedily replaced what had been lost. We found this ice as clear as glass and as hard as iron, but powder was brought from the brig, and holes were drilled, and in a couple of days we had blasted out a great rift to half its depth.

Everybody had a suspicion of what was frozen in down there, but yet the discovery gave us a shock. When but 30 feet of ice lay between us and the bottom of the ravine we could see through it well enough to make out the hull of a ship standing on an even keel. It was the hull of a brig, with masts gone, but otherwise intact. We could even make out the ropes which had been frozen stiff as iron while they streamed along her decks, but there were no bodies of dead men in sight. To blast out the remaining depths of ice and clear the ravine was a task requiring more aid than we could spare and more powder than we had aboard. We had to be content with what we could see.

Years before-perhaps half a century -a merchant vessel had made that little bay in distress. Wave and tide had carried her up to the creek, and wave and tide had blocked her exit. Then she began to freeze in. No man can say how long it took for the ice to bury her until it was a solid mass 60 feet above her decks, but decades must have passed. If one of her crew got away up to the ravine why not all of them? And yet no other body or remains were to be found on the island. This man, who may have been the captain, probably started out by himself to see if there was a chance of escape. but in making his way up the ravine he perished of cold and hunger. There was scarce a hope for the others. If they left the hulk they were forced to return to it for shelter and food came a day when food and fuel were exhausted, when avalanches of snow covered the decks and the cold of winter froze the marrow of their bones. and they hid away in forecastle and cabin and died with open eyes staring into the darkness. Upon our return to London the case was reported and made much of in the papers, but no government or individual has ever gone farther than we did. A hulk lies there full of dead men-a hulk which sailed the waters of the frozen seas half a century ago, and there it will lie until time is no more and chaos reigns again. It might be blasted out, but of what use? The solving of one mystery of the sea more or less would count for but little.
